## What Is UCANR?

In California, Cooperative Extension (UCCE) is operated by the UC's division of Agriculture and Natural Resources (UC ANR). This is a network connecting the people of California to the University.

UCCE operates 57 county offices, 9 research stations spanning the geographic and climatic diversity of the state, 8 statewide programs and 2 institutes.

UC ANR is the bridge between local issues and the power of UC Research.

UC ANR's advisors, specialists and faculty bring practical, science-based answers to Californians.

#WeAreUCANR

UC ANR works hand in hand with industry to enhance agricultural markets, help the balance of trade, address environmental concerns, protect plant health, and provide farmers with scientifically tested production techniques and Californians with increased food safety.

From more bountiful berries to safer food to cleaner water, UC ANR turns science into solutions.
